

# MTi-610

- **Small, IP51-rated IMU**
- **Factory-calibrated inertial data**
- **Full Graphical User Interface (GUI) and Software Development Kit (SDK) available**

The MTi-610 is an Inertial Measurement Unit (IMU) with a small form factor design for deep integration in your application. As a part of the MTi-600-series, this module is lightweight, robust, cost-effective and easy to integrate. It is also highly flexible, with native CAN support.

The MTi-610 is supported by the MT Software Suite, which includes MT Manager (GUI for Windows/Linux), SDK, example codes and drivers for many platforms.

- White label and OEM integration options available
- 3D models available on request
- Available online via Digi-Key, Mouser, Farnell and local distributors
