1 Purpose

This is a Notification to customers that Xsens will officially implement an End -of-Life (EOL) for the following parts as of the dates mentioned in section 2:

- Motion Trackers
 - o MTi 3rd generation (MTi's with plastic top housing or OEM)
 - o MTi-G 3rd generation (MTi-G's with plastic top housing or OEM)
 - o MTx with product ID's starting with MTx-28... and MTx-48...
- Cables:
 - o CA-USB2/CA-USB4/CA-USB6: USB cables for MTi 3rd generation RS232, RS422, RS485
 - o CA-USB2G: USB cable for MTi-G 3rd generation
 - o CA-SERi/CA-SERi-2.5: serial cables for MTi/MTi-G 3rd generation
 - o CA-DB9i/CA-DB9i-G: Serial cables with DB9 plug for MTi/MTi-G 3rd generation

2 Milestones and dates

Milestone	Definition	Date
End-of-Life Notice	This document that describes the affected products, schedule and alternatives.	August 31, 2013
End-of-Sale	The last date that products that are subject to this EOL procedure can be ordered. In the period up to the End-of-Sale date, lead times may be longer than normal. Note: During phase-out period of the MTi, availability can be restricted by obsolescence of (sub)components.	August 31, 2014
Last Shipping Date	The last-possible shipping date that can be requested. Actual shipping date depend on lead times.	December 31, 2014
Last Date of Support	The last date that Xsens Technical Support will provide support on the products subject to this EOL procedure.	December 31, 2016

3 Alternative products

Xsens offers the 4th generation MTi (MTi MkIV), an extensive product portfolio with MTis in various classes and integrations levels. The MTi MkIV product portfolio contains 7 products: 2 IMUs, 2 VRUs, 2 AHRs and a new MTi-G.

Next to being more accurate (up to 7 times lower RMS error) and having more output options, the products of the MTi MkIV are similarly priced as the 3rd generation MTi/MTi-G. When no full AHRS capabilities are required, the MTi MkIV products are even a more cost-effective solution.

Products of the MTi MkIV product portfolio are backwards compatible with software for the 3rd generation MTi and MTi-G (core capabilities); however it is advised to upgrade to the latest software to fully benefit from the features and accuracy of the MTi MkIV. More information can be found on www.xsens.com/en/industrial-applications.

A migration document is available to ensure a smooth transition to the MTi MkIV. For more information contact Xsens or your distributor: www.xsens.com or www.xsens.com/en/support
